Part-A

Format for Micro-Project Proposal

For 1st to 4th Semester

Title of Micro Project: TravelDream: A Web Application for Tours and Travels Using HTML, CSS, and JavaScript

1.0 Brief Introduction

The Tours and Travel Bookings website is designed to provide users with a seamless platform for exploring and booking various travel packages. With an increasing demand for online travel solutions, this project aims to address the needs of modern travelers by offering an intuitive and visually appealing interface. By incorporating essential features such as a responsive navigation menu, banner, slider, hover, captivating destination showcases, and a user-friendly subscription form, the website enhances the user experience and encourages engagement with potential customers. The website's development utilized HTML, CSS, and JavaScript to create a fully functional front-end application. Leveraging libraries like Swiper for slider functionality and ScrollReveal for smooth animations, the project showcases a blend of aesthetic appeal and technical efficiency. Through this project.

2.0 Aim of the Micro Project

The primary aim of this microproject is to develop a user-friendly website for tours and travel bookings that meets the needs of contemporary travelers. By creating a visually appealing and intuitive platform, the project seeks to simplify the process of exploring and booking various travel packages, thereby enhancing user engagement and satisfaction. Additionally, the microproject aims to demonstrate the practical application of web development skills, including responsive design, interactive features, and effective use of modern web technologies such as HTML, CSS, and JavaScript.

Furthermore, this microproject aims to provide an opportunity for hands-on learning and experience in web development. By implementing features such as a dynamic navigation menu, captivating content sections, and smooth animations, the project serves as a valuable educational experience. Ultimately, the goal is to produce a functional and aesthetically pleasing website that not only showcases travel options but also highlights my abilities as a developer in creating engaging digital solutions.

1.0 Action Plan (Sequence and time required for major activities for 8 weeks)

Sr. No.	Details of Activity	Planned Start Date	Planned Finish Date	Name of Responsible Team Members
1	Selection of topic	20/09/24	21/09/24	Samruddhi Bajage
2	Conduct Market Research	22/09/24	23/09/24	Shrutika Parmar
3	Creating a Sitemap	24/09/24	28/09/24	Samruddhi Bajage
4.	Set Up Development Environment	29/09/24	01/10/24	Vaishnavi Parulekar
4	Build HTML Structure and banner with JavaScript and CSS	01/10/24	01/10/24	Vaishnavi Parulekar
5	Slider and hover with JavaScript and CSS	03/10/24	03/10/24	Shrutika Parmar
6	Implementing JavaScript Functionality and Responsive Design Testing	06/10/24	09/10/24	Shrutika Parmar
7	Create final Report	10/10/24	14/10/24	Samruddhi Bajage Vaishnavi Parulekar

2.0 Resources Required (Such as raw material, some machining facility, software etc.)

Sr. No.	Name of Resource/Material	Specifications	Qty	Remarks
1	Laptop	Windows 11	1	
2	MS word	-	1	
3	VS Code editor	-	1	
4	Internet	-	-	

PART-B (Outcomes after Execution and Format for Micro-Project Report, About 6-10 Pages) For 5th Semester

Title of Micro Project: TravelDream: A Web Application for Tours and Travels Using HTML, CSS, and JavaScript

1.0 Brief Description

The Tours and Travel Bookings website is designed to provide users with a seamless platform for exploring and booking various travel packages. With an increasing demand for online travel solutions, this project aims to address the needs of modern travelers by offering an intuitive and visually appealing interface. By incorporating essential features such as a responsive navigation menu, captivating destination showcases, and a user-friendly subscription form, the website enhances the user experience and encourages engagement with potential customers.

The website's development utilized HTML, CSS, and JavaScript to create a fully functional front-end application. Leveraging libraries like Swiper for slider functionality and ScrollReveal for smooth animations, the project showcases a blend of aesthetic appeal and technical efficiency. Through this project, I aimed to gain practical experience in web development, focusing on responsive design and interactive elements that cater to a diverse audience.

2.0 Aim of Micro Project:

The primary aim of this microproject is to develop a user-friendly website for tours and travel bookings that meets the needs of contemporary travelers. By creating a visually appealing and intuitive platform, the project seeks to simplify the process of exploring and booking various travel packages, thereby enhancing user engagement and satisfaction. Additionally, the microproject aims to demonstrate the practical application of web development skills, including responsive design, interactive features, and effective use of modern web technologies such as HTML, CSS, and JavaScript.

Furthermore, this microproject aims to provide an opportunity for hands-on learning and experience in web development. By implementing features such as a dynamic navigation menu, captivating content sections, and smooth animations, the project serves as a valuable educational experience. Ultimately, the goal is to produce a functional and aesthetically pleasing website that not only showcases travel options but also highlights my abilities as a developer in creating engaging digital solutions.

3.0 Course Outcomes Integrated

- Implement Arrays and functions in Javascript.
- Create event-based web forms using javascript.
- Create Menus and navigation on webpages.

4.0 Actual Procedure followed

- Selection of topics
- Conduct Market Research
- Creating a Sitemap
- Set Up Development Environment
- Build HTML Structure and Banner
- Styling with CSS and Javascript with hover and slider
- Implementing JavaScript Functionality and Responsive Design Testing
- Create final Report
- Project Closure

5.0 Actual Resources Used: (Mention the actual resources used)

Sr. No.	Name of Resource/Material	Specifications	Qty	Remarks
1	Laptop	Windows 11	-	
2	MS word	-	-	
3	Internet	-	-	
4	VS Code	Editor	-	

6.0 Outputs of the Micro Projects

7.0 Skill Developed/Learning out of this Micro Project

- **Responsive Web Design:**

Developed the ability to create responsive web pages that adapt to various screen sizes, ensuring optimal user experience on desktops, tablets, and mobile devices.

- **UI/UX Design Principles:**

Applied user interface and user experience principles to create a visually appealing and user-friendly website.

- **Tools and Frameworks:**

Gained hands-on experience with tools like Visual Studio Code and browser developer tools to debug, test, and enhance code.

- **Attention to Detail:**

Focused on fine-tuning the website layout, content alignment, typography, and color schemes to achieve a polished and professional final product.

- **Banner, Sildshow and hover**

For displaying advertisement banner is used, for showcasing functionality to visitors to move back and forward
